### 38. Our Burial Containers

Our funeral home makes no representation or warranty about the protective value of outer burial container other than those made by the manufacturer. The only warranties granted in connection with goods sold with this funeral service are the express written warranties, if any, extended by the manufacturers.

In most areas of the country, state or local law does not require that you buy a container to surround the casket in the grave. However, many cemeteries require that you have such a container so that the grave will not sink in. Either a Grave Liner or Burial Vault will satisfy these requirements.

Grave Liners do not have a bottom and are available only through some cemeteries. They are designed to prevent the grave from collapsing from above and on the sides. Vaults have a bottom and are designed to enclose the casket. Either the Grave Liner or Burial Vault will meet the requirements of most cemeteries.
